SUMMARY

B.Tech graduate in Electronics and Computer Engineering, currently pursuing full-stack development. Passionate about building efficient, scalable, and user-friendly applications, with growing expertise in modern web technologies to launch a career as a professional developer.

SKILLS

Frontend Technologies / UI Frameworks: HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, React

Backend Technologies: Node.js, Express.js, REST APIs

Database Technologies: MongoDB

Tools / Platforms: Git, GitHub, Vercel, Netlify, VS Code, Postman

EXPERIENCE

MERN Stack Intern - Luminar Technolab,Kakkand

JUN 2025 - JAN 2026

- Built full-stack web applications using MongoDB, Express.js, React, and Node.js.
- Developed RESTful APIs and implemented complete CRUD operations for efficient data management.
- Implemented JWT-based authentication and authorization for secure user access.
- Integrated frontend components with backend services and collaborated using Git and GitHub.

PROJECTS

Skill Instructor Finder

NOV 2025 – DEC 2025

Skill Instructor Finder is a full-stack web application that helps users discover instructors for skills such as yoga, crochet, and Zumba. The platform includes role-based modules for Admin, Instructor, and User with complete CRUD functionality for managing instructor profiles and platform data. The application is built using JavaScript with React on the frontend, Node.js and Express.js on the backend, MongoDB as the database, and styled using HTML, CSS, and Tailwind CSS.

Responsive Online Banking Website

AUG 2025 – AUG 2025

The Online Banking Web Application is a responsive system that simulates basic banking operations, including user authentication, deposit and withdrawal features, and client-side account management. Developed using HTML, JavaScript, and Tailwind CSS, with data securely stored in browser localStorage.

Travel Blog Website

JUL 2025 – JUL 2025

Static Travel Blog Website is a responsive web project designed to showcase tourist destinations, travel guides, and tips, featuring a clean UI with smooth navigation. Developed using HTML, CSS, and Bootstrap.

Smart Electricity Meter

SEP 2024 – MAR 2025

Smart Electricity Meter is an IoT-based system for real-time monitoring of daily electricity consumption, enabling energy tracking, usage analysis, and efficient power management. Developed using ESP8266, Firebase, Arduino IDE, and MIT App Inventor.

EDUCATION

2021 - 2025

BTech in Electronics and Computer Engineering
CGPA - 7.69

St Joseph's College Of Engineering And Technology,Palai

2019 - 2021

12th Grade (Higher Secondary)
Percentage - 92.58

MGM NSS HSS LAKKATTOOR
